PROFILE

Software Engineer with 2+ years of experience building and troubleshooting modern web applications using JavaScript, TypeScript, Python, and RESTful APIs. Experienced working in collaborative Agile environments and integrating frontend systems with backend services and cloud platforms.

Skilled in debugging application issues, analyzing API responses, and working with Git-based workflows and CI/CD pipelines using GitHub Actions. AWS Certified Cloud Practitioner with foundational knowledge of cloud infrastructure and deployment practices.

Passionate about solving technical problems, improving developer workflows, and contributing to reliable and maintainable software systems.

SKILLS

Programming: JavaScript, TypeScript, Python, SQL

Frontend: React, Next.js, HTML, CSS, MUI

Backend: Node.js, Express.js, Flask, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS (foundational), Git, GitHub, GitHub Actions CI/CD

Tools: Postman, Netlify, Jira

Practices: Agile Scrum, Git Workflows, Code Reviews, Debugging, API Testing, Technical Documentation, Linux (basic command line usage)

EXPERIENCE

Frontend Software Developer | Collective Interchange

FEB 2026 - PRESENT | ST. JOHN'S, NL, CANADA

- Develop application features using React, Next.js, and TypeScript within a modern web application environment.
- Integrate frontend components with REST APIs, troubleshooting API responses and network requests when issues occur.
- Debug application behavior using browser developer tools and log analysis.
- Collaborate with engineers and designers in an Agile environment, participating in sprint planning, standups, and code reviews.
- Contribute to improving code quality and technical documentation for maintainability and team collaboration.

Junior Software Developer | Vifta Technology Limited

APRIL 2025 - FEB 2026 | ST. JOHN'S, NL, CANADA

- Built and maintained responsive web applications using Next.js, TypeScript, and Material UI.
- Developed backend services using Node.js and MongoDB, including file upload functionality and dynamic email templates.
- Investigated and resolved application issues by debugging APIs, database queries, and frontend workflows.
- Served as first reviewer for pull requests from interns, improving code quality and mentoring junior developers.
- Integrated PostHog analytics to monitor user interactions and support product insights.
- Collaborated with cross-functional teams to troubleshoot issues and improve application performance.

CERTIFICATIONS

- [AWS Certified Cloud Practitioner](#) - Amazon Web Services, Sept 2025
- ICTC Work Integrated Learning (WIL) - WIL Cloud Computing

PROJECTS

Full Stack Developer | MAR 2025 | [InstaloanX Application](#)

- Designed and developed a loan management system using React, Express.js, Knex.js, and MySQL.
- Implemented JWT-based authentication and role-based access control.
- Built and tested RESTful APIs supporting loan processing and user management.
- Managed source code using Git workflows including branching, pull requests, and code reviews.
- Deployed the application using [Netlify](#) with environment-based configuration.

EDUCATION

Keyin College | Diploma, Software Development

JAN 2025 - APR 2026 | CANADA

BrainStation | Diploma, Software Development

JAN 2025 - MAR 2025 | CANADA

ALX Africa | Certificate, Software Engineering

MAR 2023 - AUG 2024 | REMOTE

Federal University of Technology, Akure | B.Tech, Applied Geology

SEPT 2011 - SEPT 2016 | NIGERIA
