PROFILE

Full Stack Developer with 2+ years of experience designing and building modern web applications using JavaScript, TypeScript, React, Node.js, Python, and RESTful APIs. Experienced in working in Agile development environments and collaborating with cross-functional teams to deliver scalable, user-focused software solutions.

AWS Certified Cloud Practitioner with foundational knowledge of cloud architecture, security, and infrastructure.

Passionate about writing clean, maintainable code and building intuitive applications that solve real-world problems.

SKILLS

JavaScript, TypeScript, Python, SQL, React, Next.js, HTML, CSS, Material UI, TailwindCSS, Responsive Design, Node.js, Express.js, Flask, RESTful APIs, JWT Authentication, PostgreSQL, MySQL, MongoDB, AWS, Git, GitHub, Netlify, Postman, Jira, Agile Scrum, Unit Testing, API Design, Code Reviews, Version Control, Collaborative Development.

CERTIFICATIONS

- [AWS Certified Cloud Practitioner](#) - Amazon Web Services, Sept 2025
- ICTC Work Integrated Learning (WIL) - WIL Cloud Computing

EXPERIENCE

Frontend Software Developer | Collective Interchange

FEB 2026 - PRESENT | ST. JOHN'S, NL, CANADA

- Develop user-facing features using React, Next.js, and TypeScript within a modern web application environment.
- Implement responsive UI components and integrate frontend features with backend APIs to support dynamic application workflows.
- Collaborate with designers and developers in an Agile environment, participating in sprint planning, standups, and code reviews.

Junior Software Developer | Vifta Technology Limited

APRIL 2025 - MAR 2026 | ST. JOHN'S, NL, CANADA

- Built and maintained responsive web pages using Next.js, TypeScript, and MUI.
- Contributed to backend development, including file upload functionality and dynamic email template systems using Node.js and MongoDB.
- Served as the first reviewer for pull requests from interns, providing code feedback and ensuring quality before assigning to the technical lead for final approval.
- Integrated PostHog analytics to support product insights and improve product decision-making.
- Collaborated with cross-functional teams to refine feature specifications and improve application performance.

PROJECTS

Full Stack Developer | MAR 2025 | [InstaloanX Application](#)

- Designed and developed a full-stack loan management system using React, Express.js, Knex.js, MySQL, HTML, and Sass.
- Implemented secure authentication using JWT and role-based access control.
- Built RESTful APIs for loan processing and user management.
- Deployed the application using [Netlify](#) with environment-based configuration.

Backend Developer | AUG 2024 | [BookHive Library Management System](#)

- Developed RESTful APIs using Node.js, Express.js, and PostgreSQL.
- Implemented authentication and password encryption using bcrypt and JWT.
- Used Sequelize ORM for database migrations and efficient database operations.
- Structured backend services to support scalable and maintainable architecture.

EDUCATION

Keyin College | Diploma, Software Development

JAN 2025 - APR 2026 | CANADA

BrainStation | Diploma, Software Development

MAR 2025 | CANADA

ALX Africa | Certificate, Software Engineering

MAR 2023 - AUG 2024 | REMOTE

Federal University of Technology, Akure | B.Tech, Applied Geology

SEPT 2011 - SEPT 2016 | NIGERIA
