Summary of Qualifications

- Full Stack Software Developer with over one year of professional experience designing, developing, and maintaining responsive web applications using JavaScript, TypeScript, React, Next.js, Node.js, SQL, and RESTful APIs.
- Experienced in building frontend features, integrating backend APIs, implementing authentication workflows, and supporting database-driven applications using PostgreSQL, MySQL, and MongoDB.
- Contributed to Agile software development teams through sprint planning, standups, pull request reviews, code reviews, feature implementation, debugging, and application testing.
- AWS Certified Cloud Practitioner with foundational knowledge of cloud computing, cloud security, infrastructure, and application deployment using AWS, Heroku and Netlify.
- Proven ability to build user-focused applications, support interns through code review and implementation feedback, and prepare completed work for final review by the team lead.

Work Experience

Software Developer (Intern)

Feb 2026 – To date

Expertise Hub, St. John's, NL, Canada

- Develop responsive user-facing features using React, Next.js, and TypeScript in a modern web application.
- Build reusable UI components and integrate frontend features with backend APIs to support dynamic application workflows.
- Collaborate with designers and developers in an Agile environment through sprint planning, standups, pull request reviews, and feature discussions.
- Debug frontend issues, improve application usability, and support clean, maintainable, and user-focused software delivery.

Junior Software Developer (Intern)

Apr 2025 – Mar 2026

Vifta Technology Limited, St. John's, NL, Canada

- Built and maintained responsive web pages using Next.js, TypeScript, and Material UI.
- Contributed to backend development, including file upload functionality and dynamic email template systems using Node.js and MongoDB.
- Served as the first reviewer for pull requests from interns, providing code feedback and ensuring quality before assigning to the technical lead for final approval.
- Integrated PostHog analytics to support product insights and improve product decision-making.

- Worked collaboratively with team members to troubleshoot issues, improve application features, and support overall product development.

Volunteer Experience

Mentor and Instructor Coordinator

Apr 2026 – To date

TechNest Community, *St. John's, Newfoundland, Canada*

- Conduct interviews with prospective students and assess their suitability for the program.
- Coordinate instructors and mentors to support smooth program delivery and effective communication.
- Lead information sessions for mentors, students, and instructors to explain program expectations, structure, and next steps.
- Serve as a point of contact for mentors, students, and instructors, helping resolve challenges and escalating issues when necessary.

Skills

- **Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React, Next.js, TailwindCSS, Material UI, Responsive Design
- **Backend:** Node.js, Express.js, Flask, RESTful APIs, JWT Authentication
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud and Deployment:** AWS, Netlify, Vercel
- **Tools and Platforms:** Git, GitHub, Postman, Jira
- **AI-assisted Development:** ChatGPT, GitHub Copilot, Cursor
- **Software Development Practices:** Agile Scrum, Unit Testing, API Design, Code Reviews, Version Control, Collaborative Software Development

Education

Diploma in Software Development

Jan 2025 – Apr 2026

Keyin College, *St. John's, Canada*

Software Development Bootcamp

Jan 2025 – Mar 2025

Brainstation, *Toronto, Canada*

Certificate in Software Engineering

Mar 2023 – Aug 2024

ALX Africa, *Remote*

B.Tech. in Applied Geology

Sept 2011 – Sept 2016

Federal University of Technology, Akure, *Nigeria*

Professional Development and Training

- AWS Certified Cloud Practitioner: Amazon Web Services, Sept. 2025
- ICTC Work Integrated Learning: WIL Cloud Computing, Aug 2025
